Subject: Good News on CD for VB/I70 residential soils placement on Globe
Plant

I received a letter from Adams County, Department of Planning and Development giving me the go ahead to apply for a Certificate of Designation to place the VB/I70 residential soils on the Asarco property. I was provided a checklist of items required to apply for the Certificate of Designation. The checklist can be found on the following Web Site:

http://www.co.adams.co.us/services/department/planning_development/Applications/Certificate_of_Designation.pdf

I assume many of the items required have been developed as part of the Globeville cleanup. In particular, I would like copies of the items below used for the Globeville cleanup to meet the requirements of the certificate of designation. I understand that many of the items would likely need to be updated. However, this information will provide a good start to preparing the application. I have associated an organization to each item, whom I think would most likely (my best guess) to have the information required.

7. Certificate of Taxes Paid	Asarco
8. Proof of Ownership	Asarco
9. Proof of Water and Sewer Service	Asarco
10. Soil and Geologic Reports	Asarco/CDPHE
11. Preliminary drainage Studies	Asarco/CDPHE
12 Proof of Utility Services	Asarco
13. Certified Boundary Survey	Asarco
14. Site Plan with proposed development change	Asarco/ CDPHE
15. Explanation of request	Asarco/CDPHE
16. Application for Rezoning(or is this consistent with current zoning)	Asarco/CDPHE
17. Concurrence from CDPHE	CDPHE
18. Traffic Impact Analysis	CDPHE
19. Purpose of Fill	Asarco
20. Design and Operation Plan	Asarco

In addition, Barb could you help me coordinate a neighborhood meeting to discuss the soil placement at the Globe plant?

Please forward this information to me. Due to the significant cost savings associated with placement of the soils on the Globe Plant, this is a high priority for the VB/I70 project. Thus, please contact me immediately with any questions or concerns.

Thank you for your immediate attention to this request.
